

DM-603

DEPUTIES' MEETING

Friday, 8 November 1957

PRESENT: Mr. Dulles, Mr. Amory, Col. White, [REDACTED]
Messrs. [REDACTED] Sheldon, [REDACTED]

Mr. Dulles:

a) Noted he had been advised that [REDACTED] had recommended [REDACTED] be promoted to Brigadier General and asked [REDACTED] to prepare a letter to the Chief of Staff of the Air Force for his (DCI's) signature in support of this proposal.

Noted [REDACTED] had advised him that [REDACTED] is now in the United States. [REDACTED] undertook to find out about this visit.

b) Noted a letter he had received from the President respecting the forthcoming North Atlantic Council meeting in December and asked [REDACTED] to circulate copies to DDCI, DD/P, DD/I, DD/C, IG and [REDACTED] and [REDACTED] commented that he would like CIA to come up with some dynamic ideas.

c) Noted a cable to [REDACTED] (OUT 59862) and stated that this message was another example of unwarranted use of pseudos and additional cables for identity purposes. The Director made it clear that he did not wish identity messages and pseudos used unless they are absolutely necessary. ACTION: [REDACTED]

Mr. Amory:

Noted that [REDACTED] has completed a three year tour in [REDACTED] as the DD/I representative and after a careful review of candidates for replacement he had decided on [REDACTED]. Mr. Amory commented that before final decision is made, however, he would discuss [REDACTED] during his forthcoming trip to [REDACTED]. The DCI approved. It was also agreed that three years on this job was about right.

25X1A9a
b) Noted that [REDACTED] of NSA had invited him to a briefing of a project on which that agency desires CIA support. The Director agreed that [REDACTED] should attend and asked him to keep Messrs. Sheldon and [REDACTED] informed.

Col. White:

a) Reported on Agency participation in the United Givers Fund and the Public Aid Society, noting that we were \$6,000 over our last year's quota in the UGF and had reached 96.6% of the 1957 quota. The Director urged that every effort be made to reach the 100% mark and asked [REDACTED] to personally look into the low participation of the NEA Division. 25X1A9a

b) Referred to the discussion at the Deputies' Meeting on 4 November respecting the establishment of a mechanism for the purpose of transferring funds from one bank account to another without revealing CIA interest and noted that a Task Force had been established to look into this with Gates Lloyd as the chairman. Col. White said a preliminary report indicated this problem can be solved.

5X1C4e
c) Reported that [REDACTED] is showing a substantial net profit and in all probability we will be able to reduce our subsidy to this operation. He cautioned, however, that over the long haul the above might not hold since the Air Force is cutting down on its use of the [REDACTED] repair facilities due to movement of aircraft from the Far East area.

25X1C4e
25X1C4e
In response to a query from the Director, Col. White said we would not have to pay income tax on [REDACTED] profits in view of losses in previous years. The Director noted that his appointment with Senator Gore on 7 November for the purpose of discussing [REDACTED] had been cancelled by the Senator.

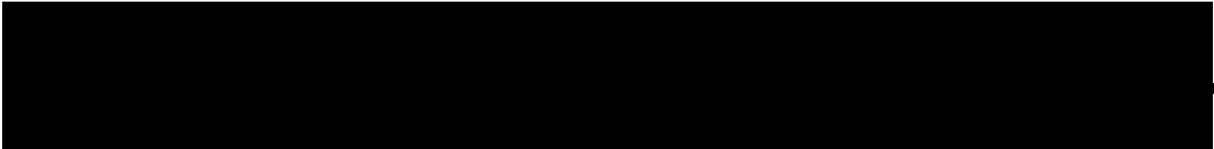

25X1A6a
25X1A6a
d) Stated for some time he had been concerned about the cost of storage of CIA materiel and ordnance, particularly since: 1) the movement of these items is slow; 2) our ordnance is stored by the [REDACTED] in the U.S.; 3) rental of the [REDACTED] is costly. Col. White went on to point out that the diversified storage of ordnance and materiel created a difficult problem should we be called upon to provide for example a 10,000-man package at a moment's notice. He said that the Army is in the process of closing out the [REDACTED] and had offered this property to CIA. While this facility would appear at first blush to be a large and expensive operation, it is equipped to take care of all our storage problems in one location and further the Army offered to run it for us on a reimbursable basis. This move, Col. White said, possibly could save the Agency money/personnel, and provide a location where all of our materiel and equipment could be placed at one point and still be easily accessible to air, 25X1A6a

rail and water transportation. In view of the above, Col. White said he and his staff are carefully looking into this possible consolidation.
